EXPERIENCE

Cognizant, Remote — *Software Development Consultant*

MARCH 2021 - PRESENT

- Created a Fortune 500 client's first production Node.js API setup with Express.js and GraphQL.
- Worked with backend service teams and designers to build a feature-rich and fully tested front-end of a POS for a major restaurant chain using ReactJS, SCSS, and Cypress.
- Added and maintained ReactJS components with Storybook in a component library shared by multiple user interfaces.

Nextek, Shoreview, MN — *Software Developer II*

NOVEMBER 2019 - MARCH 2021

- Architected and led a refactor of an email marketing application that drastically reduced issues and resource usage and improved reliability around sending a high volume of emails.
- Migrated the company's customer image hosting from a self-hosted server to Azure-hosted storage.
- Introduced modern JavaScript development patterns around Redux and HTML forms into a ReactJS frontend.

GrowthZone, Nisswa, MN — *Web/Mobile Developer Intern*

MAY 2015 - AUGUST 2017

- Created power tools with C# to help move over three hundred sites from a third party CMS to a GrowthZone built solution.
- Built a customizable app template with JavaScript and Cordova so customers could sign up and design their mobile apps.

EDUCATION

The Software Guild, Minneapolis, MN — *Bootcamp*

AUGUST 2019 - NOVEMBER 2019

Central Lakes College, Brainerd, MN — *A.A.S Mobile App Dev*

AUGUST 2015 - MAY 2017
